Modelers: Like you, I am getting older, and for the foreseeable future, will be working at Crystal River only part-time. I have already removed many kits from my product line, and will be removing most of the items remaining on the current list and come out with one or two new kits for next year's convention. Orders already in hand will be honored. If there is something you want below, you had better get it, because it may not be available much longer. Thanks, Tom
